

School of Molecular & Cellular Biology

MCB 410, Spring 2024

Developmental Biology, Stem Cells and Regenerative Medicine, 3 credit hours.

Instructor

Xin Li, Ph.D.

Office: CLSL B615

e-mail: lixin@illinois.edu

Class Meeting Schedule

Scheduled Class Time: **11:00AM - 11:50AM, MWF.**

Classroom: **217 Noyes Laboratory**

Office hours: Tuesdays 11:30am-12:30pm

Course Overview and Description

This upper-level course examines how a single cell (the fertilized egg) gives rise to a complete organism. We will be emphasizing how the study of model organisms has driven the explosion of knowledge about developmental mechanisms, and the amazing extent to which these mechanisms have been conserved evolutionarily. We will also explore recent advances in stem cell research, regeneration and regenerative medicine. Topics to be covered include fertilization and early cell lineage, body axis formation, gastrulation, neural induction and patterning, segmentation, and other aspects of pattern formation including organogenesis and limb development, as well as embryonic stem cells, induced pluripotent stem cells, adult stem cells, regeneration, and regenerative medicine.

Course Prerequisites, Requirements met

Prerequisite: [MCB 252](#) or consent of instructor.

Student Learning Outcomes

At the end of the course, through lectures, discussions, activities and assessments, students will be able to:

- (i) share our enthusiasm about this fascinating field
- (ii) understand the scientific discovery process that leads to our current understanding of development and regeneration;
- (iii) think critically about experimental evidence
- (iv) apply what have been learned in this class to solve related problems (in one's career or everyday life).

Course Website, Course Tools

<https://learn.illinois.edu/course/view.php?id=77069#section-0>

Lectures (11:00AM - 11:50AM, MWF):

Lectures will present key concepts as well as the experiments and methodologies scientists use to understand developmental phenomena. Lectures will be used to expand upon the material presented in the textbook and to provide important contextual information. We will also have in-class discussions, activities, and student presentations to promote active engagement with the course material. Therefore, it is very important for you to attend the live lectures.

Readings:

Textbook: the recommended textbook for assigned readings is:

Principles of Development, 6th or 5th Edition by Lewis Wolpert and Cheryll Tickle (Oxford University Press)
Copies are on reserve at the Funk ACES library and the MCB Learning Center.

Other readings: primary research papers that will be discussed in class will be posted on Moodle as pdf files.

Paper Discussions

There will be 10 paper discussion classes when we discuss primary research articles. Primary articles and questions will be posted one week before the class meets to discuss the paper; the questions will help you to read the paper and prepare for the discussion. Attendance and participation of the paper discussion classes is required (see below).

Exams:

Exams 1-3 will be held on lecture time (11am-11:50am) in 217 Noyes Laboratory on the following days:

Exam 1 (lectures 1-10): Friday, Feb 9;

Exam 2 (lectures 11-20): Wed., March 6;

Exam 3 (lectures 21-30): Monday, April 8;

Final exam (lectures 31-40): date TBA.

Exams will cover material presented in class (not including paper discussions), and they will consist of a mixture of short answer and experiment-based questions.

Grades:

The grades of all four exams (100 points each; 400 points total), will make up 4/5 of the course grade. The remainder of the grade (100 points) will consist of participation and contribution to the 10 paper discussion classes and completion of a final question about the paper (10 points per class). For excused absence, a make-up assignment can be completed to get credits for the missing class.

Academic integrity:

Any infraction of academic integrity (as outlined in the University's Student Code) will result in a grade of zero on the assignment/ exam in question or, at the discretion of the instructor, a more severe penalty.

Date	Topic, reading pages for 5th edition	Reading pages for 6th edition
Jan 17	Introduction: model organisms, types of experiments, Key concepts. Chapter 1	Chapter 1
Jan 19	Germ cells, cytoplasmic determinants. pp409-413	pp397-401
Jan 22	Germ cells (Continued). pp413-423	pp401-407
Jan 24	Germ cells. Paper discussion	Paper discussion
Jan 26	Fertilization. pp424-429	pp412-418
Jan 29	Sex determination, Dosage compensation, Imprinting. pp430-442, 420-423	pp419-429, 409-411
Jan 31	C. elegans I: cell lineages. pp235-239	pp235-240
Feb 2	C. elegans II: asymmetric division, PAR genes. pp239-248	pp239-247
Feb 5	C. elegans III: heterochronic mutants, apoptosis. pp237-238, 248-250	pp237-238, 248-250
Feb 7	RNA interference. Paper discussion	Paper discussion
Feb 9	Exam I.	
Feb 12	<i>Drosophila</i> : Experimental tools and techniques. pp. 37-43, 69, 70, 86	pp37-43, 69
Feb 14	<i>Drosophila</i> embryonic patterning. pp. 44-51, 66-76	pp44-51, 66-75

Feb 21	Hox genes and homeotic transformations. pp. 90-95, 215	pp83-88, 214
Feb 23	Hox genes. Paper discussion	Paper discussion
Feb 26	Morphogens and patterning. pp. 27-29, 476-489	pp27-30, 435-447
Feb 28	Tissue movement and morphogenesis. pp. 368, 380-383, 385	pp278, 293-296, 302
Mar 1	Cell fate specification/Eye development. pp494-497	Scans will be posted on website
Mar 4	Tissue movement. Paper discussion	Paper discussion
Mar 6	Exam II.	
Mar 8	Xenopus gastrulation. pp103-111; 383-387	pp94-102, 299-305
Mar 9-17		spring break
Mar 18	Xenopus organizer, mesoderm induction. pp144-164	pp142-162
Mar 20	Chick and mouse. pp114-125; 185-200	pp105-115, 131-133, 184-198
Mar 22	Neural crest cells. Paper discussion	Paper discussion
Mar 25	Somitogenesis pp207-222	pp205-223
Mar 27	Left-Right Asymmetry pp. 226-229	pp227-230
Mar 29	L-R asymmetry. Paper discussion	Paper discussion
Apr 1	Growth control in development and cancer pp. 569-588	pp553-566
Apr 3	Limb development pp. 447-476	pp452-480
Apr 5	Development and evolution Chapter 14	Chapter 14
Apr 8	Exam III	
Apr 10	Stem cells. pp322-342.	pp350-376
Apr 12	Somatic cell nuclear transfer; Induced pluripotent stem cells. pp343-355	pp376-391
Apr 15	Stem cells. Paper discussion	Paper discussion
Apr 17	Regeneration overview, Limb regeneration pp. 594-609	pp577-594
Apr 19	Neural stem cells and neural fate specification. pp520-543	pp505-528
Apr 22	Axon navigation and regeneration. pp544-554	pp529-538
Apr 24	Studying human development with stem-cell-derived peri-gastruloids. Paper discussion.	Paper discussion
Apr 26	Branching morphogenesis and lung, kidney and pancreas regeneration pp. 498-504	pp484-488
Apr 29	Heart development and cardiac regeneration pp. 504-507, 609-612	pp489-492
May 1	Regenerative Medicine. Paper discussion	Paper discussion
TBA	Final exam	

MCB Curriculum Policies

For non-academic campus assistance and support:

- See Office of Diversity, Equity and Access (ODEA) information at the end of this document.

Student Advocacy Resources:

- For student-centered advocacy programs and services visit:
mcb.illinois.edu/undergrad/advising/resources.

Contacting MCB Course Personnel:

- MCB course personnel are more than happy to assist students.
- Emails to instructors, TAs, or course coordinators will only be answered if they come from an @illinois.edu account. We will only use this account in order to protect your educational information and profile. As a student, please remember that when you email a staff member, it is important to include all pertinent information so that we can assist you in the most efficient and effective manner possible. This information includes:
 - The course rubric in the subject line
 - Your full first and last name
 - Your NetID (the first part of your illinois.edu email account)
 - Your UIN (9 digit number that can be found on your ICard)
 - The course that you are concerned about (the course personnel often work with multiple courses)
 - Your section letter/number
 - The previous email "thread" or previous communicated information pertinent to the situation
- Your cooperation will help us respond much more quickly to your concerns.

Policies:

- Unfamiliarity with policies is not a defense for not knowing what they cover.

Adding the Course after the Semester Starts:

- We understand that the University has an add deadline 10 days into the semester, but the University lets individual courses and/or programs determine their policies for late adds. We feel that students who choose to add a course late do so at their own discretion with knowledge that there may be points lost in the process.

Religious Observances and Practices:

- Students are required to submit the Request for Accommodation for Religious Observances Form (which can be found at www.odos.illinois.edu/.../Religious_Observance_Accommodation_Request_Form.docx) to their instructors and the Office of the Dean of Students requesting accommodation by the end of the second week of the course. Requests that are not submitted within this time frame may not be granted. Information about accommodations can be found in the Student Code: <http://studentcode.illinois.edu/>.

DRES Accommodations:

- We are committed to providing a learning environment where our students can succeed. If you require special accommodations, please contact us and the Disability Resources and Educational Services (DRES) as soon as possible. To contact DRES, you may visit 1207 S. Oak Street, Champaign, call 217.333.4603, or email disability@illinois.edu. We will try to meet all accommodations once the process has started. Please note that accommodations are not retroactive to the beginning of the semester, but begin the day you contact your professor, instructor or coordinator with a current letter of accommodation from DRES.

- If a student believes that they need DRES accommodations, they should contact DRES at disability@illinois.edu.

Class Absences:

- Regular class attendance is expected of all students at the University. (http://odos.illinois.edu/studentAssistance/absence/revise_code.asp)
- If you find yourself ill, you must submit confirmation of a visit with a medical practitioner within 24 hours of your absence. The confirmation cannot be provided by a relative, even if the relative is a practitioner.
- The Office of the Dean of Students will only provide informative letters to instructors for protracted illness of 3 or more days, certain emergencies and to be present during the serious illness of immediate family members (parents, legal guardian, spouse/partner, siblings, children, or grandparents). These letters do not excuse you from class but merely provide information for the instructor to consider with regard to excusing the absence and permitting make-up work. Students must request absence letters from the Office of the Dean of Students after the student has returned to class but not more than 10 business days after the last date of absence.
- Absences that may be excused without a letter include circumstances beyond the student's control such as medical treatment, surgery related to prolonged illness or injury, pregnancy, legal matters, citizenship or naturalization processes, or acts of nature which cause destruction to a primary residence or disrupt air travel. All will require documentation.
- Absences that may also be excused without a letter include a conference or job, graduate or professional school interviews, though a best effort should be made to schedule these events to minimize class attendance disruption. All will require documentation.
- Absences planned for the items listed in previous bullet point must be communicated to your instructor or course coordinator at least two weeks in advance of the absence. Failure to do so may result in the loss of opportunity to reschedule the missed class period and the portion of the grade associated with this class period.
- Absences that will not be excused include family events such as reunions or weddings, or presence during serious illness of extended family members (aunt, uncle, niece, nephew, or cousin).
- Unplanned absences may result in the loss of opportunity to reschedule the missed class period and, therefore, the portion of the grade associated with this class period.
- Absences will be handled according to individual course policy.

Exam Absences:

- If you must miss an exam due to unforeseen circumstances, you are required to contact your instructor or course coordinator within 24 hours of the absence. You will then have 48 hours from the absence in which to submit documentation to your instructor or course coordinator. You must also submit an online Absence Form if one is available on your course website. Course personnel will evaluate documentation and decide whether or not there will be an option to compensate for the missed exam through either a make-up exam or proration. Failure to follow this procedure will result in a zero for the exam.
- If you find yourself ill, you must submit confirmation of a visit with a medical practitioner within 24 hours of your absence. The confirmation cannot be provided by a relative, even if the relative is a practitioner.
- If you must miss an exam for a conference or job, graduate or professional school interviews, the exam may be prorated. A best effort should be made to schedule these events around exams. You will need to be mindful that only one exam may be prorated in a semester for any and all absences. All will require documentation.

- There will be instances when the student must make an individual choice about their ability to perform on an exam and will need to accept any and all consequences for that choice.
- If the absence is a result of a protracted illness of 3 days or more, you should follow the procedure for obtaining a letter from the Office of the Dean of Students. The request may be made once the student returns to class but not more than 10 business days after the last date of absence.

Exam Conflicts:

- If you have a regularly scheduled University course that conflicts with the exam, you should complete the online Conflict Exam Request Form on the course website. This request must be made by 5:00 pm not less than 3 business days prior to the exam. Requests made after 5:00 pm and less than 3 business days prior to the exam will not be granted. See course policies for a specific deadline for your course.
- Work schedules should be adjusted, if at all possible, in order to eliminate a conflict with scheduled exams. Please plan accordingly at the beginning of the semester. If eliminating a conflict is not possible, the student should complete the online Conflict Exam Request Form on the course website. This request must be made by 5:00 pm not less than 3 business days prior to the exam. Requests made after 5:00 pm and less than 3 business days prior to the exam will not be granted.
- Students that are formally participating in officially recognized groups, such as athletic teams and performing groups, with a conflict should request a conflict exam by 5:00 pm not less than 3 days prior to the exam via the online Conflict Request Form. Formal participation does not include general meetings of RSOs or any other recognized groups. Documentation of the event will be required prior to scheduling the conflict exam. Requests made after 5:00 pm and less than 3 business days prior to the exam will not be granted.
- Students with DRES accommodations should also submit the online Conflict Request Form by 5:00 pm no later than 3 business days prior to the exam. Requests made after 5:00 pm and less than 3 business days prior to the exam will not be granted.

Final Exam Absence:

- If you must miss a final exam due to unforeseen circumstances, you are required to contact your instructor or course coordinator within 24 hours of the absence. You must also contact the Dean of your college. Finally, you must submit an online Absence Form if one is available on your course website. You will receive an ABS (absent) in the course if you miss the final exam. This ABS will result in an F in the course unless action is taken. The Dean can approve the change of the ABS to an Incomplete, which then allows a limited window of time for you to complete the final exam and earn a grade in the course.
- There will be instances when the student must make an individual choice about their ability to perform on an exam and will need to accept any and all consequences for that choice.
- If the absence is a result of a protracted illness, you should follow the procedure for obtaining a letter from the Office of the Dean of Students. The request may be made once the student recovers but not more than 10 business days after the date of absence.
- Information about final exams can be found in the Student Code: <http://studentcode.illinois.edu/>.

Final Exam Conflict:

- Conflict final exams may only be granted for any one of the following situations:
 - Students with three final exams scheduled within a 24 hour period as defined in Section 82.A.4). Final Examinations of the *Code of Policies and Regulations Applying to All Students* which can be found at: www.illinois.edu/admin/manual/code/

- Students who have two final exams scheduled at the same time. Final conflict exam requests should be made to the course with larger enrollment. Course personnel can assist with information to determine which course this would be.
- Students who have a verified personal problem, and who have received written permission to take a conflict final exam from a dean in their college.
- Students who have DRES academic accommodations.
- Students that find themselves in any of the above situations should complete the online Conflict Final Exam Request Form which can be found on the course website. This request must be made by 5:00 pm on the last day of class in order for the request to be granted. Any requests made after this time may not be granted. If a conflict final exam is granted, it may be scheduled at any time during the final examination period and is at the discretion of the instructor or course coordinator.

Grades:

- Each course has a grade scale. The grade you earn in the course will be based on the points that you earn. Effort is reflected in points earned. We will adhere to the grade scale when assigning grades in order to avoid capriciousness and to adhere to fairness and equity for all students.

Academic Integrity:

- The Code of Policies and Regulations Applying to All Students will be applied in all instances of academic misconduct committed by students. This applies to all exams, presentations, assignments and materials distributed or used in this course. You can review these policies at the following website: <http://admin.illinois.edu/policy/code/index.html> and specifically here: <http://studentcode.illinois.edu/article1/part4/1-401/>
- Science cannot exist without honesty. The faculty and staff in MCB require students, as scientists-in-the-making, to hold the highest standards of scientific and academic conduct. Any form of cheating on any graded work in courses is unacceptable.
- We require that all graded work be entirely your own, and that anything you write using the words of other writers be correctly attributed. Some specific points follow.
- On exams, the answers that you turn in for grading must be your own, formulated during the exam from your own understanding of the material and without any supporting information, be it written, verbal or electronic. Copying the work of another student, or allowing another to copy your work, or copying work from any other source, is unacceptable. Since we cannot always monitor you as you complete your work, we must rely upon appearance of your work from which to judge. If the work you submit resembles that of another student or another source too closely, we may conclude that it was not your original work. Always make a conscious effort to complete your work on your own and to protect it from the view of others, in order to ensure that it will be seen as your own. Failure to adhere to these standards for any portion of an exam may result in a grade of zero for the entire exam or quiz for all persons involved.
- Texting, or the use of a cell phone or any other device for any purpose, during a quiz or exam is prohibited. Doing so may earn you a zero or a more extreme penalty on the quiz or exam at the discretion of the instructor.
- Use of any social or electronic media to share information, request information or make confidential information public is prohibited. Any use of this type may earn you a zero on the exam or a more extreme penalty at the discretion of the instructor.
- On written or electronic assignments, the answers that you turn in for grading must be written in your own words, formulated from your own understanding of the material. While you may be working with other students in the course, you must formulate and submit your own answers. Copying or paraphrasing the work of another student, or allowing another to copy or paraphrase your work, is

unacceptable. Since we cannot monitor you as you complete your work, we have only the appearance of your work from which to judge. If the work you submit resembles that of another student too closely, we may conclude that it was not your original work. Always make a conscious effort to complete your work on your own and to protect it from the view of others, in order to ensure that it will be seen as your own. You must also make a conscious effort to protect your passwords and accounts. Failure to adhere to these standards may result in a grade of zero for the entire assignment for all persons involved.

- On written or electronic assignments, if you use a statement taken directly from any book or other publication, including the course textbook, you must provide a citation. That is, you must put the text in quotes and put the author of the publication in parentheses after the quotation. Failure to do so will result in zero credit for that answer. Further, using only the words of another author as your entire answer or as the majority of your answer to any question is never sufficient to earn credit. If the majority of your work has been taken directly from a publication, you are likely to receive no credit for the work, since you would not be demonstrating knowledge beyond the ability to copy. Even if you quote another, your answer must be substantially your own words, drawn from your own understanding of the material.

Electronic Media/Device Use:

- Use of any social or electronic media to share course information, request course information or make confidential course information public is prohibited. Any use of this type may earn you a zero on an assignment or exam or a more extreme penalty at the discretion of the instructor.
- Any violation of the social media policy **on your account** may result in a zero on an assignment or exam or a more extreme penalty at the discretion of the instructor.
- Any social media sites created in relation to MCB courses must grant access to course personnel upon request. Failure to provide access will result in a failing grade in the course for the group/site's administrator(s).
- No electronic devices, including smart watches, are allowed at exams.

Course Material:

- Students are welcome and encouraged to make audio recordings of course lectures.
- The material recorded is intellectual and copyrighted property of the University of Illinois Board of Trustees and may be made for personal use only.
- Video recordings of any kind are strictly prohibited.
- Posting of audio recordings or transcriptions on social or electronic media platforms is strictly prohibited.
- Posting or redistributing of course material in any format is strictly prohibited.

University Information of Student Safety – Active Threats:

- **General Emergency Response Recommendations** ([Emergency Response Guide](#)):
- Security Threat. The Department of Homeland Security and the University of Illinois at Urbana-Champaign Office of Campus Emergency Planning recommend the following three responses to any emergency on campus: **RUN > HIDE > FIGHT**
- **Only follow these actions if safe to do so.** When in doubt, follow your instincts - you are your best advocate!
- **RUN** — Action taken to leave an area for personal safety.
 - Take the time to learn the different ways to leave your building **before** there is an emergency.

- Evacuations are mandatory for fire alarms and when directed by authorities! No exceptions!
 - Evacuate immediately. Pull manual fire alarm to prompt a response for others to evacuate.
 - Take critical personal items only (keys, purse, and outerwear) and close doors behind you.
 - Assist those who need help, but carefully consider whether you may put yourself at risk.
 - Look for **Exit** signs indicating potential egress/escape routes.
 - If you are not able to evacuate, go to an Area of Rescue Assistance, as indicated on the front page of this plan.
 - Evacuate to Evacuation Assembly Area, as indicated on front page of this plan.
 - Remain at Evacuation Assembly Area until additional instructions are given.
 - Alert authorities to those who may need assistance.
 - Do not re-enter building until informed by emergency response personnel that it is safe to return.
 - Active Threat: IF it is safe to do so, run out of the building. Get as far away as possible. Do NOT go to the Evacuation Assembly Area.
- **HIDE** — Action taken to seek immediate shelter indoors when emergency conditions do not warrant or allow evacuation.
 - Severe Weather:
 - If you are outside, proceed to the nearest protective building.
 - If sheltering-in-place due to severe weather, proceed to the identified Storm Refuge Area or to the lowest, most interior area of the building away from windows or hazardous equipment or materials.
 - Active Threat:
 - Lock or barricade your area.
 - Get to a place where the threat cannot see you.
 - Place cell phones on silent.
 - Do not make any noise.
 - Do not come out until you receive an Illini-Alert advising you it is safe.
 - **FIGHT** — Action taken as a last resort to increase your odds of survival.
 - Active Threat: If you cannot run away safely or hide, be prepared to fight with anything available to increase your odds for survival.

Student Resources/Where to go for Help:

We Care at Illinois

- For sexual misconduct support, response and prevention visit: wecare.illinois.edu

Title IX makes it clear that violence and harassment based on sex and gender are Civil Rights offenses subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, etc. If you or someone you know has been harassed or assaulted, you can find the appropriate resources here:

http://oiir.illinois.edu/sites/prod/files/SexualMisconduct_ResourceGuide.pdf
